SPRING 1927

Rhododendron carolinianum. See page 12

## NATIVE BROAD-LEAVED EVERGREENS

FOR IMMEDIATE EFFECT

And Many Other Specialties for Fall and Spring Planting. Exceptional Quotations on Large Lists Submitted. My supply and facilities are unequaled and backed up by 34 years' constant experience growing and handling Hardy Native Ornamentals which should recommend the favor of your orders

GARDENS OF THE BLUE RIDGE

E. C. ROBBINS, *Ornamental  
Nurseryman*

NOTE NEW AND PERMANENT ADDRESS

ASHFORD, McDOWELL COUNTY

NORTH CAROLINA

Member American Association of Nurserymen

The celebrated Blue Ridge Mountains, near Ashford, N. C.

## *Note to Customers*

### NEW LOCATION

Is in the heart of the Blue Ridge Mountains, "the most beautiful mountain region in the continent," in western North Carolina, nearly 4,000 feet above sea-level. My new and permanent headquarters is **Ashford, McDowell County, North Carolina**, on the scenic Clinchfield Railroad.

All offers of stock are made subject to conditions beyond my control

### PACKING AND GRADING

Will be done in the most careful way. Boxing included and burlapping at cost where not stated. **Certificate of Inspection attached to all shipments.**

### QUOTATIONS

This list cancels all previous offers.

### REMITTANCE OR REFERENCE

Should accompany orders from unknown correspondents. Discount of 5 per cent on cash orders. All bills due and payable 30 days from date of invoice. Interest charged after 30 days.

### SHIPPING INSTRUCTIONS

Should always be given fully, unless you prefer to leave to our best judgment. In this we assume no risk, our responsibility ceasing upon receipt of signed bill of lading by forwarders. **All claims for damages in transit must be handled by consignee.**

### CLAIMS

All claims for errors must be reported upon receipt of goods and will be rectified promptly. Unless this is done we can accept no responsibility of any kind.

***All orders are accepted and filled on these terms, unless otherwise agreed***

---

**FALL SHIPPING SEASON** begins late in August and extends usually till about December 1, according to weather conditions.

**SPRING SHIPMENTS** are forwarded according to customers' wishes and subject to conditions beyond our control, March 1 to May 15. **PLEASE ORDER EARLY.**

*Azalea calendulacea*

## Cultural Directions for Azaleas, Broad-Leaved Evergreens, and Similar Plants

Azaleas, Kalmias, Leucothoe, Pieris, and Rhododendrons are acid-soil plants and will not succeed well in limestone soils. A deep, porous soil is essential. The ground should be excavated to a depth of about 2 feet, working in leaf-mold, humus, or well-rotted stable manure. This mixture must be worked in carefully and packed tight around the roots. Fill in the excavation with rotted sods, muck or peat soil, mixed with a small quantity of sand.

The plants should be set the same depth as in the nursery, which is shown by the earth-line near the base. After planting, mulch with several inches of leaves or light litter, allowing this mulch to remain around the plants, and renew it annually in the autumn. A thin covering of rich soil may be used to an advantage in holding mulch in place and to assist in decomposition. The mulch also tends to keep the soil cool in summer and protects against freezing in winter. If these simple instructions are observed, your planting of Broad-leaved Evergreens will be entirely successful.

For use in beds of Rhododendrons, Azaleas, and other similar plants we recommend the following: Galax, Shortia, Ferns, Orchids, Lilies, Trilliums, Cimicifugas, Iris, Polygonatums, Sanguinarias, and most of our other perennials.

## Hardy Native Deciduous Trees and Shrubs
